

Organic Lab Covid-19 Safety Procedures

- If you are ill, do not come to lab. Any missed work can be made up during the makeup labs.
- Masks are not mandatory, but we do recommend them. If you choose to wear a mask, you will be responsible for providing the mask. If you have an accident with your mask, you can obtain a replacement from the stockroom.
- Hand sanitizer stations are located just outside the door to your lab room. Also, when leaving the lab, you must wash your hands with soap and water.
- Be aware of your surroundings while in lab. Try to maintain as much distance as possible from one another while in the lab.
- You will be responsible for cleaning your area before you leave. Use the spray bottle with isopropyl alcohol to clean any surfaces you have touched such as the outside of the hood, the hotplate, etc.

Procedure for Entering the Labs

- Students may begin queuing up 15 minutes, in the lobby of NHB, before their lab start. Students will be only be allowed into the labs when their TA has arrived and it is time to start.
